AUTHOR BIOGRAPHIES

Evgenii Evstafev is a software developer at the University of Cambridge, where he has been working since September 2022, specializing in identity and access management. He earned a Bachelor's degree in Business Informatics from the Higher School of Economics (2010-2014) and a Master's degree in Programming from Perm National Research Polytechnic University (2014-2016). Evgenii also taught at the Faculty of Mechanics and Mathematics at Perm State University while engaged in postgraduate studies (2016-2019). His professional journey spans over 11 years across various industries, including roles such as System Architect at L'Etoile (2021-2022) focusing on product development, the Head of Analytics at Gazprombank (2020-2021), and Head of the Department for System Analysis and Software Design at Center 2M (2019-2020). Additionally, he worked on system development at the energy company T Plus (2016-2019).
